AmBank BizRACE programme open for registration

PETALING JAYA: AmBank Group has launched the fourth season of AmBank BizRACE – a programme that aims to help manufacturers and related industries achieve sustainability through IR4.0 adoption.

With the theme “Reach New Heights: Transform Your Business”, AmBank is extending the programme this season to small, medium and large enterprises in Malaysia.

Registration for the programme is open until July 21.

In collaboration with Bosch Rexroth Malaysia, Malaysian Green Technology and Climate Change Corporation, Malaysian Consortium of Mid-Tier Companies, Pantas Software, YGL Convergence Bhd and The College of Law Australia, 100 companies will be shortlisted to undergo a structured development programme. Training will cover the fundamentals of IR4.0 and how its adoption can help reduce environmental footprint, improve social impact, and create economic value.

With RM2 million worth of prizes in the forms of development courses and solutions, this season’s programme will be conducted through a combination of face-to-face and virtual consultations and coaching by industry technical experts, and potential project financing support.
