

CORPORATE EXCELLENCE

RHB bags four awards for ESG efforts

KUALA LUMPUR: RHB Banking Group has won four awards for its efforts to integrate environmental, social and governance (ESG) considerations across its business and decision-making processes.

It was recognised at the World's Best Bank for Corporate Responsibility and Asia's Best Bank for Corporate Responsibility at the Euromoney Awards for Excellence 2022.

These awards were in recognition of RHB's initiatives to create sustainable positive impacts by enriching and empowering the community, particularly the lower income group, through various programmes.

The banking group was also recognised at the inaugural 7th Global Good Governance (3G) Awards 2022 alongside global market leaders that have demon-

strated good governance and sustainability.

RHB received the 3G Excellence in Corporate Governance Award for its efforts in promoting and exercising the best corporate governance practices and raising the bar for corporate stewardship.

Group managing director and group chief executive officer Mohd Rashid Mohamad said the banking group's community engagement efforts were differentiated by its clear vision and objectives.

"Our community engagement initiatives are anchored against two pillars — 'Nurturing Future Generations', which have impacted more than 27,000 students, and 'Lifting Communities', which has touched the lives of more than 100,000 beneficiaries across the region since 2016."
